## Molloy College Announces Graduation of Energeia Partnership Inaugural Class

***Drew Bogner, Ph.D., President, Molloy College, is pleased to announce the graduation of the inaugural class of The Energeia Partnership: The Academy for Regional Stewardship on Long Island.***

***The partnership was established in 2006 by Molloy College. Under the leadership of Executive Director, Paul Tonna, the goal of The Energeia Partnership is to create a dynamic learning environment for Long Island leaders committed to action on behalf of justice, the dignity of the human person, and the protection of natural resources.***

***"Molloy College made a major commitment to regional stewardship when it created the Energeia Partnership in 2006," said Dr. Bogner. "In keeping with the College's overall mission to facilitate transformation, Energeia's mandate has been to explore and address many of Long Island's fundamental problems. When forming the inaugural class, we brought together prominent leaders who were open to learning more about the issues impacting Long Island and committed to making positive change. We applaud their commitment and celebrate their graduation."***
