Molloy College to Host Careers in Psychology Panel Discussion

Molloy College is scheduled to hold its first ever *Careers in Psychology Panel Discussion*. The event is being held in conjunction with the Suffolk County Psychological Association. The event will be comprised of brief presentations on various areas of specialization including: Private Practice, Experimental Psychology, Industrial and Organizational Psychology, Hospital Psychologist, College Psychologist, Health Psychologist, Neuropsychology, and Forensics.

“Most people think only about private practice when they think psychology,” said Cheryl Camenzuli, Ph.D., Assistant Professor of Psychology, Molloy College. “We want to show students that it’s a very broad based field and that the career possibilities are extensive and cover a wide range of interests.”

This discussion will be of interest to both high school and college students who are thinking of a major in Psychology, but are uncertain about what they would like to do in the field.

The panel discussion will take place on March 28, 2008, from 2-5 p.m., Multipurpose Room, Wilbur Arts Center. There is no charge for this event. For further information on the workshop please contact Dr. Camenzuli at 516.678.5000 ext. 6109.
